

## Kenyon Athletic Shield

Our unified school voice extends to the playing field through our Kenyon athletic shield, which creates consistency across all of the College's athletic teams—men's and women's—including varsity, intramural, and club sports, as well as sporting events. The new design capitalizes on the chevron and shield shapes found in the Kenyon shield's original design.

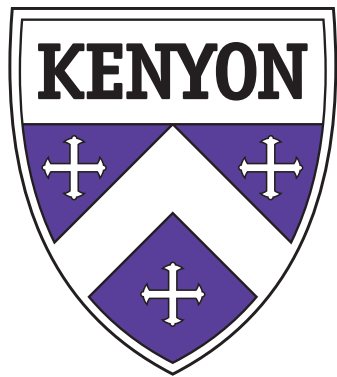

Clean and simple, this design maintains integrity at a very small size as well as at a jumbo size, such as when it is displayed on a football field. You will find that it also holds up well when expressed through various materials, from ink and thread to grass. Three versions of the shield—in one, two, or three colors—are available to you for a wide variety of uses and interpretations, from print materials and uniforms to signage, promotional items, sports gear, exhibit materials, and the enhancement of facilities (such as when it appears on the floor of the basketball court).

Here, you see the two-color version of the shield. A three-color version is available for more elaborate and formal usage. The clear and consistent use of this shield will promote a strong sense of community and camaraderie among Kenyon's athletes and the people who support our teams.
