

FIVE EASY STEPS

1

**Wear a face
covering**

3

**Keep gatherings
small**

2

Spread out

4

Wash hands

5

**Monitor
symptoms**

TAKING CARE TAKES A VILLAGE.

Kenyon

Recognizing that there is no single approach to preventing the spread of COVID-19, we are incorporating a number of strategies to minimize risk to our community: **the universal wearing of face coverings (other than in private residential spaces or offices), maintaining safe physical distances, limits on mass gatherings, practicing good public health hygiene and monitoring our health closely.** Limiting virus transmission will rely on all members of the Kenyon community practicing safe and healthy behaviors.
